Municipal Engineering Department

ROAD CROSSING BORING REQUIREMENTS

1. Permits shall be issued by the Avon Lake Engineering Department for all road crossings in the City of Avon Lake.
2. If the existing utility falls within the 7'0" minimum distance from the edge of pavement or any excavations occur within 5'0" of the edge of pavement, a non-refundable fee of \$125.00 will be charged for the permit.
3. Inspections shall be made for all road crossings in the City of Avon Lake by the Avon Lake Engineering Department.
4. For all streets, other than secondary streets in the City of Avon Lake, a steel casing shall be required for all P.V.C. materials.
5. Controlled density backfill shall be used.
6. All requirements for road crossings shall be subject to the approval of the City Engineer.
