Ribbon Cutting at Dental Studio of Avon Lake on Thursday, February 6, at 1:30pm

Avon Lake, Ohio: On Thursday, February 6, at 1:30pm, there will be a ribbon cutting ceremony at Dental Studio of Avon Lake, the new full-service dental practice at 32713 Walker Road in Avon Lake.

The Dental Studio of Avon Lake is part of the "Associates In Dentistry" network, which draws patients from all over Northern Ohio. This network began 25 years ago with Bay Dental Office, and has expanded into Lakewood (*Lakewood Dental Associates*), Amherst (*Amherst Dental Associates*) and now Avon Lake, where they have moved into a building that used to be a Howard Hanna office. "The location on Walker Road near Route 83 is very visible and easy to get to," says Steve Corcoran, who handles marketing for the Dental Studio. It provides a bright and open space inside, and offers plenty of parking. It's really a great location!"

With such a broad group of patients, Associates In Dentistry had several options for where to open their newest facility. They chose Avon Lake because they believe that what they offer is a great fit the community, and that it is an attractive spot for drawing patients from surrounding cities. "Avon Lake is such a vibrant community," says Corcoran, "and our aim is to appeal to young couples and families and offer full-service dentistry that brings a modern feel, uses state-of-the-art equipment, and offers an enjoyable, friendly atmosphere."

To Ted Esborn, Avon Lake's Economic Development Director, the location that Dental Studio of Avon Lake has chosen is significant, and their timing is perfect. "The City of Avon Lake adopted a new comprehensive land use plan in November," says Esborn. "It identifies three focus areas: the west end of Lake Rd., the north end of Lear Rd., and the central intersection of Walker Rd. and Rt. 83. Our three most recent business openings have seen one in each focus area. Ibiza Mediterranean Restaurant on Lake Rd., Big M Pizza on Lear Rd., and now the Dental Studio of Avon Lake in the center of town. This dental practice is moving into a building that had been vacant for three years, and bringing an operation that draws people into Avon Lake from all over the region. The City is very lucky to have them."

What can patients expect at the Dental Studio of Avon Lake? For starters, a bright new space that features large free-standing saltwater fish tank. But aside from the welcoming environment, and the full-service dentistry, Corcoran says that the specialized services are second to none. "We're taking advantage of the latest advancements in dental technology to offer same day crowns, orthodontics, full smile makeovers, and other services that used to take forever to complete!"
