Municipal Engineering Department

ROAD CROSSING BORING REQUIREMENTS

- Permits shall be issued by the Avon Lake Engineering Department for all road crossings in the City of Avon Lake.
- If the existing utility falls within the 7'0" minimum distance from the edge of pavement or any excavations occur within 5'0" of the edge of pavement, a non-refundable fee of \$125.00 will be charged for the permit.
- Inspections shall be made for all road crossings in the City of Avon Lake by the Avon Lake Engineering Department.
- For all streets, other than secondary streets in the City of Avon Lake, a steel casing shall be required for all P.V.C. materials.
- Controlled density backfill shall be used.
- All requirements for road crossings shall be subject to the approval of the City Engineer.
